

Sutherland Welles Ltd.®

Sustainable, natural & earth-friendly Polymerized Tung Oil wood finishes.

Exterior Polymerized Tung Oil Sealer

The combination of UV guards, fungicide and Polymerized Tung Oil make this a superior beam dressing during construction or while the structure is exposed. The low solid of Polymerized Tung Oil penetrates into the green wood and allows transfer of moisture out of the log minimizing cracking. This is an alternative to a PEG solution.

Instructions

step 1:

- Apply Exterior Sealer
- Don't wipe
- Let cure 12-24 hours

step 2:

- Apply Exterior Sealer
- Don't wipe
- Let cure 24 hours

Exterior Timber Frames

Wood Preparation

Remove dirt from the log using a wire brush without scaring the surface.

Applicator Options

Brush: Natural white china bristle brush (thin coats only)
