# Sutherland Welles Ltd.®

*Sustainable, natural & earth-friendly Polymerized Tung Oil wood finishes.*

## Botanical Polymerized Tung Oil
### *Sealer or Low Lustre*

For finishing Interior Ceilings, Beams & Mantles we recommend our Botanical Tung Oil. This line is all Polymerized Tung Oil with no resin fortification. The Botanical Tung Oil Formula is made with our proprietary citrus solvent, Di-Citrusol™. The solvent becomes airborne and dissipates leaving the exact same oil in and on the wood.

## Interior Ceilings, Beams & Mantles

### Wood Preparation
All wood surfaces should be free of lint, dirt, grease, wax, oil and old paint. If you are refinishing old wood, please make sure to remove any loose old finish. **Sand the wood using 220 grit paper**. Avoid using higher grits as they close down the wood pores interfering with maximum penetration.

### Applicator Options
**Rag:** Scott® blue paper shop towels
**Brush:** Natural white china bristle brush (thin coats only)

### Coat Cure Test
Push finger tips against the grain of the wood. If they glide easily over the surface, you are ready to apply your next coat.

---

### Ceiling Instructions
### Low Sheen
*Sealer ONLY*
**step 1:**
- Apply *Sealer*
- Dont Wipe
- Let cure 24 hours

**step 2:**
- Sand (400 grit)
